LIVE NEWS OF THE INDUSTRIAL WORLD

BRAKEMAN COPE GIVES HIS VERSION OF TROUBLE.

Says That He Did His Duty, Nothing More and Nothing Less—Mulherin & Judge Lumber Company Organized—To Build a Planing Mill. Working Time at D., L. & W. Collieries Will Not Be Changed Until There Are More Cars—Trainmen Working Overtime.

The following written statement has been handed to the Tribune for publication:

Editor of the Tribune:—Sir: Referring to the article at the head of the industrial news column in the Tribune of Thursday morning, 'The Tribune of Thursday of three Delaware, Lackawanna and Western trainmen, I think it no more than fair that the public should be allowed to hear the other side.

It has been the custom with some men, who by some means have attained a position of power, to try to explain to the public the reasons for their conduct elsewhere and not to brand them before all men's eyes as not to be trusted and incompetent, because in their own minds they stand condemned.

I do most emphatically deny the allegation that we were arguing at the time specified in your article, also that our train was going without a flag out. We will acknowledge that the flag was not out a proper distance, as we did not have time to place it there after the train was brought to a stop. The question had been raised as to whether train No. 12 ran Sunday morning.

There had been a bulletin up some time stating that the train would not run Sunday morning, but it seems that had been changed and Conductor Nauman was not aware of the fact. This is in the conductor's business to ascertain, and he was positive that train No. 12 did not run on Sunday. He told us what to do and we obeyed, as all good men should do under the circumstances.

Had I done as Superintendent Salisbury wished me to, backed into the siding at once on our arrival, a collision would have been inevitable, as train No. 12 could not stop short of the switch and would have caught us on the frog.

As it was, we averted a disaster, only delaying train No. 12 a few minutes. This explanation has already been made to the superintendent by the conductor and we are fully justified in repeating it, also, to you, sir, when a man is on duty under a superior officer it is his duty to obey all orders without question or dispute, and I think every good man will agree with me in this. They are supposed to be the head, and we the hands.

Yours truly,
Judith E. Cope, Brakeman,
Scranton, Nov. 2.

A Company Organized.

The Mulherin & Judge Lumber company has succeeded in the firm of Mulherin & Judges. The business will be continued at the present location and additional facilities will be added. A planing mill is to be erected.

IT'S DIFFERENT

THE NORTH AMERICAN (PHILADELPHIA)

IT'S DIFFERENT, because it prints all the news, and all the news it prints is true.

IT'S DIFFERENT, because it's bright and brisk, up-to-date and vigorous, but not yellow.

IT'S DIFFERENT, because its only policy is to tell the truth. It has no covert or personal interests to promote. It serves no political ambition, no creed, no class prejudice, no mere partisan purpose.

IT'S DIFFERENT, because it advocates equal taxation and battles against the existing system, which favors the rich corporation at the expense of the farmer, the merchant, the manufacturer and the wage-earner.

IT'S DIFFERENT, because it stands for Republican principles, and makes war upon all who, under the stolen name of Republicans, are disloyal to those principles.

IT'S DIFFERENT, because it believes manhood and not money should rule. Therefore it upholds the rights of all, as against the aggressive power of the privileged few.

IT'S DIFFERENT, because no boss, no corporation, can control one line of its space.

IT'S DIFFERENT, because it is non-sectarian and broad; every party, every faith, every class, and the workingman equally with the millionaire, gets a fair hearing in its columns.

IT'S DIFFERENT, because it upholds faith in humanity, and the progress of mankind toward higher ideals, larger hopes and better living.

IT'S DIFFERENT, because it will continue to be different. Watch The North American and see it grow.

Improving a Colliery.

Important improvements are being made on the P. & R. C. & I. Co's, Hammond colliery at Girardville. An extension of about 210 feet, to make a third lift below water level, is being sunk on the Buck Mountain slope. A tunnel will also be driven opposite the slope for a distance of about thirty-five feet, to be used temporarily as a turn out west of the slope.

The tunnel will be driven from the Buck Mountain to the Mammoth vein and the Mammoth gangway will be opened from this tunnel, and the third lift developed. It has not been decided whether the present hoisting slope on the Mammoth vein will be continued to the third lift and used as a main hoisting slope, or whether a shaft will be sunk to hoist the coal to supply the breaker. Hammond colliery is destined to be one of the largest shippers in the valley.

To Abandon Collieries.

The last of the series of pillars are being worked out at Buck Ridge at Shamokin, and by the close of the year the mine will be abandoned by the Philadelphia and Reading Coal and Iron company, who will not renew the lease with the landowners on account of the coal about being worked out of the present levels. To sink a shaft would be too expensive for the amount of coal on a lower lift.

The Corbin and Excelsior collieries, leased by the coal and iron company to A. D. Robertson & Co., will also be abandoned at the end of this year on account of all the coal on the present levels being exhausted. The three collieries employ about 800 men and boys, who will be able to secure employment at Henry Clay shaft, Burnside and Big Mountain collieries, which are owned by the Reading Coal and Iron company. Extensive new workings are being prepared, especially at the Clay and Burnside.

New Time Schedule.

The new time schedule, which has engrossed the attention of the Lackawanna officials for some time, will be an innovation in railroad circles in this city. The arrangement of the time tables will not materially change the running time of trains, but will afford an opportunity for keeping lines on all trains.

The schedule is a mammoth board, divided into two sections and designated by the letters a. m. and p. m. The hours and minutes of the day are arranged on the board so that the movement of every train can be determined at a glance.

The system of running the trains is being tried in a series of tests and strings and if "the wires become crossed," so to speak, the trouble can be learned without much delay. The schedule is now being arranged at the shops and will be ready for use in a few days.

This and That.

Passenger traffic has been light during the past week on all the roads owing to the inclemency of the weather.

The rooms in the Lackawanna station being vacated by Superintendent Russell's clerks will be occupied next week by Superintendent Taylor's clerks.

The repairs at the steam breaker are nearing completion, but it is not definitely known how soon operations will be resumed there, owing to the scarcity of cars.

Many Lackawanna trainmen are working extra hours nearly every day and their wage schedule was adopted, and their wages have been increased accordingly.

The governor on the fan engine at Storrs shaft broke down yesterday morning and necessitated the shutting down of operations for the remainder of the day. The breaker was repaired and work will be resumed this morning.

Many people are not aware that the Lehigh Valley Railroad company has an issue of preferred stock, so seldom is it quoted on the market. There is only \$100,000 of it, mainly held by those who "stood in" with the early management of the road.

Superintendent Loomis, of the Delaware, Lackawanna and Western Coal department, stated yesterday that the mines now in operation are supplying the demand for coal, and until more cars are furnished there will be no perceptible change in the working of the various collieries.

One of the most obliging employees in the service of the Delaware, Lackawanna and Western company at the Lackawanna station is Special Officer Williams. His duties bring him in touch with hundreds of people every day, and the affable manner in which he greets young and old alike makes him the popular man that he is.

The records of some of the fast runs made on the Atlantic City route of the Pennsylvania last summer show that there was some tall running there. The distance of 53.3 miles between Camden and Atlantic City was made in from fifty to fifty-three minutes on several days. This running was with loaded trains and the trains were long and heavy.

CARLISLE INDIANS IN TOWN.

Muscular Red Men Pass Through Here on Their Way to Utica.

It was an interested and enthusiastic crowd that gathered at the Delaware, Lackawanna and Western station yesterday noon and watched the arrival of the Carlisle Indians' football team, as heralded in yesterday's Tribune. The latter passed through here on their way to Utica and stopped off at Hawley's for dinner at 12:30.

Their men were once carefully arranged by their coach, the famous "Pop" Warner, formerly Cornell's popular and able teacher in football tactics, and himself a player of no small reputation. Beside the coach and physical director, W. G. Thompson, there were about twenty-two in the party, comprising the eleven regular players, the rest being substitutes.

The Indians were all clad in the regular school uniform and are as healthy and brawny-looking a crowd of athletes as were ever gathered together. Three of the men, Redwater, the big guard; Pierce, the full back, and Wheelock, captain and tackle of the team, are veritable giants in stature and all the rest are typical Indians of medium height and broad-shouldered, with the high cheek bones and straight hair of their race.

Hudson, their famous quarter back, is a short fellow with broad shoulders and an intelligent face. He is probably the greatest drop-kicker on the gridiron today, but takes his honors modestly and is exceedingly tactful about himself.

Coch Warner will save his best men for next Saturday's big game with Princeton and put in a more or less scrub team against Hamilton college at Utica this afternoon. He says that in the Indians' game with Harvard last Saturday they played in hard luck, but, nevertheless, he entertains a hearty respect for the winners of the Crimson, and affirms that they have the strongest team on the field at present.

The Indians, while quiet, were very friendly with the crowd composed principally of high school boys who were out to see them. The greatest friendship seems to exist between them and their good-natured coach and, in fact, the "poor Lov's" seemed to entertain a very fraternal and successful spirit towards the world in general.

Just before they left the crowd of high school boys gave a rousing cheer for the Indians and then another one. As a result, just as the train was about to start the windows were drawn up and a long, prolonged cheer rent the air, which signified that the men from Carlisle were giving their answering yell.

ELIZA JACKSON INJURED.

Eliza Jackson, aged 65 years, was brought to the Lackawanna hospital yesterday morning. It seems that she was crossing West Lackawanna avenue near the Jersey Central station when a team of horses ran into her. She was taken into the Jersey Central and attended to and afterwards removed to the Lackawanna hospital. She is unhurt, with the exception of a badly sprained ankle.

"Treasures of Flowers Rare and Roses Red"

Come from enriched, well nourished soil, giving the result of perfect growth. The same result can be obtained by humanity in general, if they look after the blood, the life of the whole system.

Hood's Sarsaparilla is the one specific remedy for this, as it transforms poor blood into perfect blood—from which follows the greatest of blessings, good health.

Eczema—"Since I was a child I have had eruptions on my body which our physician pronounced eczema. I took six bottles of Hood's Sarsaparilla and have had no return of the disease." Mrs. Ida M. Potter, Connecticut.

Hood's Sarsaparilla Never Disappoints

Hood's Pills cure liver ills; the non-irritating and only cathartic in use with Hood's Sarsaparilla.
